

A New World of Ideas for
**SMART HOMES TO
INTELLIGENT BUILDINGS**

SOLUTIONS FOR SIMPLIFIED LIVING

SOLUTIONS FOR SIMPLIFIED LIVING

We are a young and dynamic technology integration company having spread our wings to design smart building solutions for a variety of sectors and offering plethora of solutions under one umbrella. We can proudly claim that we are technically trained, certified and equipped to integrate the technologies we promote. We are one of the earliest certified adopters of world-leading smart building platform KNX and have proudly delivered 300+ error-free solutions over the past few years.

Future Automation Solutions proclaims itself to be one of the best automation solution providers in the industry by virtue of its team, product basket, solution expertise, certifications, process based project management and its unparalleled track record of maintenance free installations.
